Subject: comment for Consent Agenda item
Date: Monday, June 24, 2024 3:37:18 PM

Dear members of City Council,

I object to the appointment of Dustin Nanna to Planning Commission. He actively opposed many of my neighbors and Ward 1 residents during a time when Addison Farms was being considered in that ward, including on the record at a Council meeting. That makes him a controversial appointee for our representation, at best.

Because of that, I also object to inclusion of this item on the Consent Agenda.

Mayor: Also, could I please get clarity on when his appointment was posted for the public? And how long before email public comment closed was that?

I am traveling to a concert tonight in which my child participates and not able to attend Council's meeting for public comment in person.

Sincerely,

Stacy Chaney-Blankenship
