It's been two weeks since I was here to make a public plea for someone, anyone, to investigate the conduct of Municipal Court Clerk Cindy Dinovo's decades long history of abuse of power in office. The Columbus Dispatch investigated and wrote a scathing article about Clerk Dinovo's history and I waited. Crickets. Crickets from everyone except concerned citizens who are waiting for some answers.

How has this behavior been allowed to continue? How are you not outraged? Delaware City Council, have any of you made public statements against Clerk Dinovo's use of racial slurs and the repeated, multiple settled lawsuits for bad behavior in the workplace? How much taxpayer money has been paid to settle these lawsuits against Clerk Dinovo while you ask citizens to approve tax hike this November? Do you think the public has a right to question that?

Where is the Delaware County Republican Party on one of their very own endorsed office holders? Why haven't we heard from you? Are those who sponsored her last fundraiser going to speak out against this? Jeff Balzer, Andrew Brenner, Gary Merrill, Melissa Schiffel, Brian Lorenz, Beth Lear? Are you going to continue giving money to someone like this? How many more people need to come forward and say the same things? How much more taxpayer hush money needs to be spent settling lawsuits to make Clerk Dinovo's wrongdoings get swept under the rug?

Why has this been allowed to continue? Because of silence. I'm told there is nothing Human Resources or City Council can do because she's an elected official. She's only accountable to the people. I ask you HOW can people even be aware of this if you're all SILENT. How are the citizens supposed to know? She's endorsed by the Republican Party and runs their slate card. Thousands and thousands of dollars paid out in lawsuits no one would be talking about if I wasn't here.

More and more people keep coming forward. Investigate this people and stop the silence.

Thank you,
Tabatha Sisson
