I simply cannot believe I have to reach out AGAIN regarding the conduct of Municipal Court Clerk Cindy Dinovo. I'm coming to realize Cindy must be untouchable because not a single person has reached out to acknowledge mine or the many other statements about her abuse of power and suffering we've experienced because of her. We're not going away and as this continues, we're only finding more past employees coming forward about what they've experienced. You have a responsibility to acknowledge these statements.

She represents the city because it is the city who signs her paychecks. She has won her elections under the endorsement of the Republican Party. Nothing has been done by either of you. Nothing!

There are many things that could be done. Has the city requested Cindy attend management training to at least attempt to limit the city's liability in lawsuits over her abusive behavior? Has the city at least warned Cindy to curtail her abusive conduct or provided advice to her current employees? Have you done anything but hide behind the claim you have no authority over her? Has the Republican Party confronted Cindy about the way she has represented them publicly? I am asking these questions and requesting a response.

Thank you,
Tabatha Sisson
